COMUNICATO n. 715 del 04/04/2020

Coronavirus: yesterday 17 deaths and 104 new infections

Yesterday as well, hard numbers concerning the Coronavirus emergency in Trentino. 17 deaths were recorded, 104 newly infected, out of which 88 were administered swabs. People in intensive care increased from 78 to 80. The number of swabs administered today is 780, continuously growing. The total number of people infected rises to 2889, of these 246 recovered clinically. With today's deaths, 204 people total have regrettably lost their lives because of the virus. There are 1,554 infected patients assisted at home. 298 in retirement homes, 150 in nursing homes. 423 people are hospitalized, including 80 ICU patients.

The president of the Province Maurizio Fugatti reported on a video-conference-meeting with the mayors of the 5 most affected municipalities of Trentino, namely Vermiglio, Canazei, Campitello di Fassa, Borgo Chiese, Pieve di Bono -Price. "It was decided, in agreement with the police and the mayors - he reported - that in these municipalities, given the situation, police and carabinieri controls on compliance with the restrictive measures will be intensified. A technical committee coordinated by the police commissioner Cracovia will start tomorrow. At the same time, we decided that we will provide with masks the inhabitants of these five municipalities starting from tomorrow, and that they will be the first to experiment with the serological tests ".

Finally, the President reminded that he had signed two new ordinances, one that extends until April 13 the restrictive measures (additional to the national ones) such as the closure of parks and cycle paths. The other ordinance concerns the deferment, until 30 September, of taxes to be paid to local authorities.
