

TRENTINO

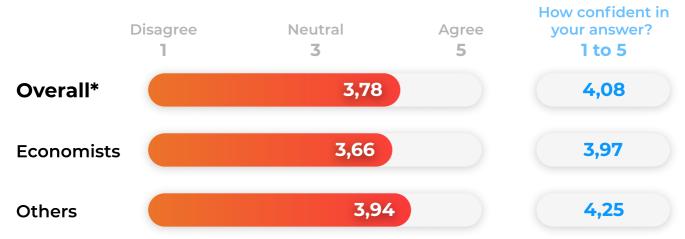

XVI EDIZIONE TRENTO 3 - 6 giugno 2021 We surveyed the opinions of the speakers at the Festival about two very relevant issues concerning the role of the state: patents on vaccines and taxation levels

To what extent do you agree to the following statements?

A temporary waiver on vaccine patents will allow even the least developed countries to rapidly proceed with their vaccination campaigns.

To tackle the pandemic effects on income distribution and public debt, most OECD countries should increase taxes at the very high end of the income distribution.
